### GOAL

The goal of Watumull Institute of Electronics Engineering & Computer Technology, is to make significant contribution to the rapidly changing fields of modern technology through education, research and professional services. It aims to promote an efficient value-oriented culture, to meet the long term needs of the community. The institute lays stress on:

- 1) Interaction between the faculty members and the industrial experts.
- 2) The inculcation of conceptual and analytical skills in the students, leading to deeper appreciation of technology and its offshoots in major functional areas and an ability to work as a team in a competitive environment.

### ACADEMICS

The Bachelor of Engineering course is of four years which is further divided into eight semesters. The first year (F.E.) course spread over to two semesters deals with general engineering common to all branches of engineering. The basic objective is to give the elementary foundation needed in different aspects of engineering. During second year (S.E.) and third year (T.E.), students gain basic knowledge in the chosen branch. The Final year i.e. fourth year (B.E) is designed to strengthen the specialized skills, and students learn to apply the concepts studied earlier by participating in “Project Work”. The subject and the syllabus are as prescribed by the University of Mumbai.

The institute has a team of qualified and dedicated core faculty and is in the continuous process of expanding and upgrading the faculty base. This expertise is further supplemented by visiting experts from distinguished academic institutes and industry. To ensure continuous advancement, the institute encourages and sponsors faculty members to undertake higher education and research activities. As a result, many faculty members are pursuing post graduate and doctorate programmes. The institute regularly conducts short term training programmes and workshops.

Watumull provides a comprehensive yet flexible approach towards knowledge development. In-depth lectures, seminars, presentations, group tasks and other interactive exercises are all part of the curriculum. Personality development is given equal importance, rational and balanced approach is sought to address various issues. In all, at Watumull Institute the teaching and learning process enables the students to build a strong fundamental base, develops their engineering skills and prepares them to face the challenges of the world. Support facilities include well equipped laboratories, class rooms with projection facilities and public address system, library, computer centre, seminar hall and conference room.

The University of Mumbai conducts examination in every semester, and class tests are conducted periodically by the college. The performance in these tests is taken into consideration while giving the term-work/sessional marks to the students. The submission of term work in each subject should be taken very seriously. If a student fails to submit his/her Term work or Sessional work before the prescribed date, he/she will not be allowed to appear for the concerned examination.

Term Sanctioning (allowing the students to appear for the University examination) entirely depends upon the following:-

- Attendance in the class (Minimum 75%)
- Satisfactory completion of all term work
- Practical and Assignments as specified in Syllabus or as instructed by the faculty.
